Baby Words Tracker

Cloie Dale | Gwynevere Deterding | Robert Powell | Marcelo Torres

Project Focus

- Baby Words Tracker is a mobile app that allows parents to track their child's speech through text, audio, and video.
- Simple data visualizations are available to parents, and all data input into the app is available to researchers from the UA's Literacy Education and Cognitive Science Lab

All Significant Features

Backend

- Database (Firestore)
 - Structure/Design
 - Models, Repository, & Services
- Authentication (Firebase)
- Localization
- Custom Claims/Roles
- Spell Check
- Cloud Functions (Firebase)
- Video Upload (Google Cloud Storage)

Frontend

- User Pages: Homepage (Word Record, Video Upload, basic stats), Settings, Profile, Stats, Sign-in
- Researcher Pages: Homepage (Data View), Settings, Profile
- User Statistics
- Researcher Data Table View
- Child Word Table Download
- Email-UID Table Download

New Features and Functionality

Cloie

- Database anonymization
- Video upload

Gwynevere

- CSV export
- UI refactor

Robert

- Additional stats
- Documentation

Marcelo

- Rework current user data storage
- Finish admin page (add Email-UID table download)

Sprint Backlog

Tr	ID	Story	Estimated Hours	Priority (1-5)	Status	Person Assigned	Sprint Finished
3.1		add download as csv function to researcher	2	4	Completed	Gwyn	3
3.2		Video Streaming	10	5	In Progress	Cloie	
3.3		video selection and upload for specified user	10	5	Completed	Cloie	3
3.4		anonymize database	3	4	Completed	Cloie	3
3.5		Update User model class to use a listener	6	4	Completed	Marcelo	3
3.6		Refactor top bar to work with new user model class	4	4	Completed	Marcelo, Rob	3
3.7		Refactor and admin page and cloud functions to work with anonymized database	5	4	Completed	Marcelo	3
3.8		Add email-uid table download button	3	5	Completed	Marcelo	3
3.9		Cleanup admin page	1	3	Completed	Marcelo	3
3.10		Refactor landing page UI	6	3	Completed	Gwyn	3
3.11		Add surveys at signup	4	3	Not Started		
3.12		Add researcher account from admin	3	4	Not Started		
3.13		Add accept terms and conditions page	4	3	Not Started		

Significant Items Remaining

Video Streaming

- Change from download to streaming
- Allow video compression

Priority: 5

Sign Up Process

- Terms and conditions
- User survey
- App walk through
- Convert to researcher

Priority: 4

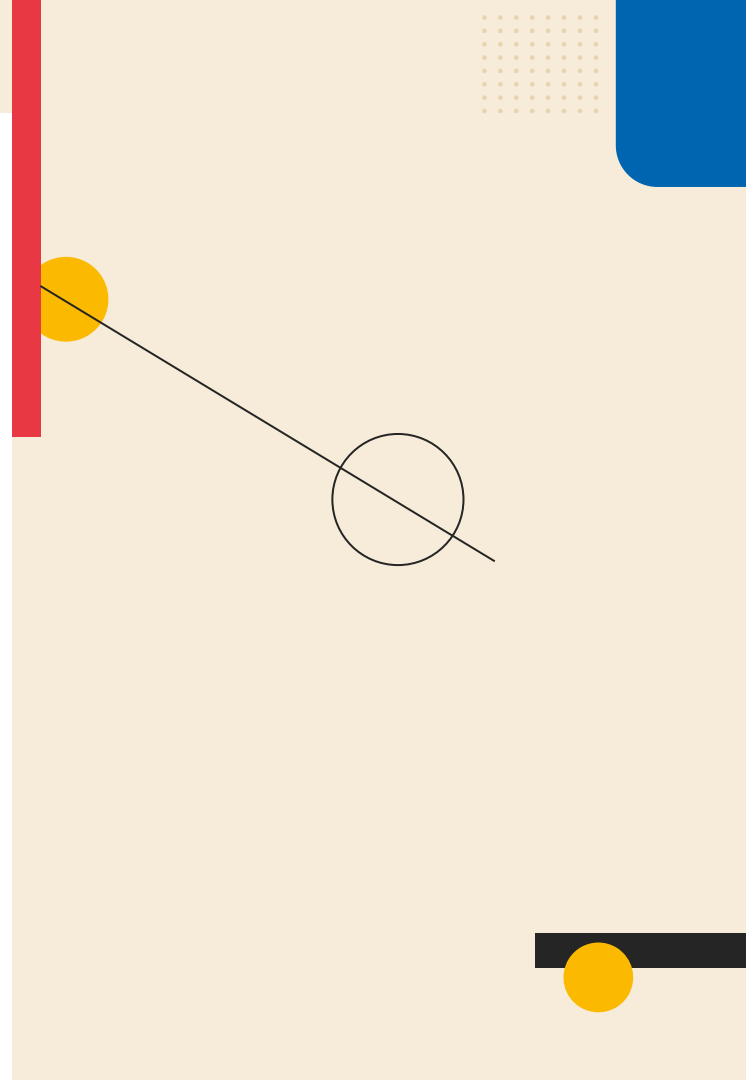

App Store

- Complete process to allow app to be hosted on both Apple and Google app store

Priority: 5

Live Demo!

THANKS!
